Articulation Information

- CSU Transferable

Methods of Evaluation

- Essay Examinations
 - Example: In essay format, create a dream career that integrates the results of your assessments. Assessment based upon rubric developed by instructor and shared with students.
- Reports
 - Example: A final written report on the student's educational and career goals incorporating multiple steps, timeline and details including relevant educational level and course of study will be submitted. Grade based upon completeness, college level writing and incorporation of all required information.

Repeatable

No

Methods of Instruction

- Lecture/Discussion
- Distance Learning

Lecture:

1. The instructor will facilitate integration, meaning and analysis of the various aspects of career assessments and assignments through specific prompts and assignments. The instructor will engage the student in a discussion of long term goals and specific action plans.

Distance Learning

1. Discuss and analyze appropriate career options after conducting informational interviews and evaluating results: Students will research 10 essential pieces of information about both their Plan A and Plan B careers, and then provide a written evaluation of each based against their career profile. Outcome is to support an informed career decision. The research is from various types of research, including online and in-person, and the written project is submitted electronically through the LMS.

Typical Out of Class Assignments Reading Assignments

1. Read relevant sections of website MyPersonality.com and outline points of congruence and dissonance between the information and personal experience. 2. Read a career or industry specific book or trade magazine related to your career profile and be prepared to discuss in class.

Writing, Problem Solving or Performance

1. In essay format, create a dream career that integrates your ideal values and skills and includes your personality traits. Add any interests ideas or details that you want included but may not have emerged in the assessment process. 2. Using Eureka, obtain a set of 15 points of information about a potential career choice and catalogue in a report. Compare and contrast the information to your career profile to determine the level of fit. 3. Formulate and write a career development plan including educational goals and course of study.

Other (Term projects, research papers, portfolios, etc.)

1. Make an appointment for an informational interview with a person in a career area of interest determined by your career profile. Complete a reflection paper of your experience.

Required Materials

Other materials and-or supplies required of students that contribute to the cost of the course.

Access to internet for assessments and research. Instructor provided course packet.
