Methods of Instruction

- Activity
- Distance Learning

Activity:

1. The instructor will lead a discussion that uses terms from play production to help students identify strategies to apply advanced techniques to their acting performance. For example, if they script calls for an actor to do a "prat fall," instructor will explain a little history on origin of prat falls and demonstrate how to safely fall on stage in character.
2. The instructor will lead students in an improvised exercise to explore movement qualities for caricature types of Commedia de'll arte that applied to the production of "A Servant to Two Masters."

Distance Learning

1. Instructor will post on the LMS and discuss dramaturgical research materials and steps to approaching building character applying appropriate techniques to work remotely on a role for either a virtual or hybrid production. Virtual rehearsals and performances will be handled over video conferencing.

Typical Out of Class Assignments Reading Assignments

1. Students will read original Grimm fairy tales from which the musical "Into the Woods" was adapted as a source to discuss character back story and apply in rehearsals of "Into the Woods." 2. Students will read the entire play and identify clues to their character as well as relationships to

all other characters paying close attention to scenes in which they do not appear as well as those that they do.

Writing, Problem Solving or Performance

1. Students will submit a paper identifying expected and possibly unexpected acting challenges for the performance of the play and list ways they will approach working to solve these challenges. 2. Students will apply theoretical knowledge of acting technique in a practical performance environment. For example, if the production is using a southern dialect, discuss approach to ensuring the vocal diction is still intact and that all words are still understood.
