IT 0015. Business Information Systems
Units: 3
Formerly known as CIS 62
Advisory: Eligibility for ENGL 1A
Hours: 72 (54 lecture, 18 laboratory)
Examination of information systems and their role in business. Focus on information systems, database management systems, networking, e-commerce, ethics and security, computer systems hardware and software components. Application of these concepts and methods through hands-on projects developing computer-based solutions to business problems. Also includes exploration and practice of 21st century career skills: Digital Fluency - Professional Networking (Social Media), Collaboration – Teamwork, Social/Diversity Awareness. (C-ID ITIS 120) (CSU)

IT 0028. Independent Study
Units: 1-3
Formerly known as CIS 28
Designed for students interested in furthering their knowledge at an independent study level in an area where no specific curriculum offering is currently available. Independent study might include, but is not limited to, research papers, special subject area projects, and research projects. See Independent Study page in catalog. (CSU)

IT 0030. Software for Dynamic Presentations
Units: 3
Formerly known as CIS 100
Advisory: Completion of BUS 250 with grade of "C" or better or equivalent digital fluency
Hours: 72 (54 lecture, 18 laboratory)
Amplify your message by integrating graphics, animation, music, video and use various software applications to develop unique, effective, professional quality presentations. Design and customize high quality presentations employing best practices. Also includes exploration and practice of 21st century career skills: Communication, Social/Diversity Awareness, Digital Fluency and Collaboration. (CSU)

IT 0035. Microsoft Outlook - Managing Information
Units: 3
Formerly known as CIS 105
Advisory: Completion of BUS 250 with grade of "C" or better
Hours: 72 (54 lecture, 18 laboratory)
Includes managing email folders; sending, receiving, forwarding email messages; using “netiquette” and distribution lists; scheduling appointments, meetings, events; creating contacts, address books and calendars; tracking tasks; setting reminders; sharing information and publishing schedules via the web. Also includes exploration and practice of 21st century career skills: Communication. (not transferable)

IT 0040. Creating Business Graphics with Microsoft Publisher
Units: 3
Formerly known as CIS 120
Advisory: Completion of BUS 250 with grade of "C" or better
Hours: 72 (54 lecture, 18 laboratory)
Designed to assist the office professional in utilizing Microsoft Publisher to create high-quality desktop publishing documents. Learning activities include preparation of a flyer, newsletter, logo, CD liner, business card, tri-fold brochure, calendar, catalog, event program, coupon, and certificate. Also includes exploration and practice of 21st century career skills: Social/Diversity Awareness. (CSU)

IT 0045. Foundations for Creating Web Pages
Units: 3
Formerly known as CIS 67
Advisory: Completion of BUS 250 with grade of "C" or better
Hours: 72 (54 lecture, 18 laboratory)
Introduction to building Web pages using HTML and basic Web-authoring software; technical and design concepts behind Web pages: how the Internet works, connection technologies, Web search techniques, evaluating Web pages, file transfer and management, file compression, browser tips and tricks, mailing lists, Internet security. Also includes exploration and practice of 21st century career skills: Social/Diversity Awareness and Entrepreneurial Mindset. (CSU)

IT 0055. Database Management
Units: 3
Formerly known as CIS 90
Advisory: Completion of BUS 252 with grade of "C" or better
Hours: 72 (54 lecture, 18 laboratory)
Discover the intricacies of relational databases using the current version of Microsoft Access. Includes designing database structures: tables, queries, forms, reports, and macros. Also includes integrating with the Web, Excel and other programs. Emphasis on hands-on learning. Also includes exploration and practice of 21st century career skills: Analysis/Solution Mindset, Critical Thinking, Problem Solving and Digital Fluency. (CSU)

IT 0060. Project Management Concepts and Software
Units: 3
Formerly known as CIS 136
Advisory: Completion of IT 55 with grade of "C" or better
Hours: 72 (54 lecture, 18 laboratory)
Explores Project Management concepts and terminologies along with the use of Microsoft Office Project and other project management tools through discussions, hands-on exercises and classroom learning experiences. Includes WBS, budgeting, and resource allocation and other important PM topics such as Scope and Project Team Development. Helps prepare students to use the software package in their daily duties as a project manager or project assistant. Also includes exploration and practice of 21st century career skills: Adaptability, Collaboration and Social/Diversity Awareness. (not transferable)

IT 0065. Data Analytics/Visualization Using Tableau
Units: 3
Formerly known as CIS 91
Advisory: Completion of BUS 252 and IT 55 with grades of "C" or better
Hours: 72 (54 lecture, 18 laboratory)
Learn how to use Tableau, a leading data analysis and visualization tool, to bring the world's data into views that everyone can use and understand. Go beyond basic charts by building powerful dashboards and drill down reports to support business decision makers or help explain visually the global impact of a single voice. (not transferable)
IT 0070. Systems Analysis and Design  
*Units: 3*  
**Advisory:** Completion of BUS 250 and IT 15 with grade of "C" or better  
**Hours:** 72 (54 lecture, 18 laboratory)  
This course is a detailed study of business systems analysis and design theory and application techniques. Issues in systems analysis and design, from project identification, requirements, specification and analysis, design to implementation and maintenance, will be presented. Focus will be on tools and principles related to object oriented systems analysis and design. Attention is given to the role of the systems analyst within the business environment. Also includes exploration and practice of 21st century career skills: Adaptability, Analysis/Solution Mindset, and Communication. (CSU)  

IT 0075. Python for Many Uses  
*Units: 3*  
**Advisory:** Completion of IT 105 with grade of "C" or better  
**Hours:** 72 (54 lecture, 18 laboratory)  
Learn to use Python to manipulate data for analytics, to manage IoT devices and/or for creating scripts to improve network security. This course will start at a very basic level and work up to applied solutions for real world work environments. (CSU)  

IT 0080. IoT - Internet of Things  
*Units: 3*  
**Advisory:** Eligibility for ENGL 1A; Completion with grades of "C" or better or concurrent enrollment in IT 75 and IT 105 recommended  
**Hours:** 72 (54 lecture, 18 laboratory)  
Introduction to the Internet of Things (IoT), where people, processes, things, and data are connected via emerging Internet technologies. A variety of networking and computer hardware devices will be integrated into end-to-end systems to solve practical problems. (CSU)  

IT 0090. IT Fundamentals  
*Unit: 1.5*  
**Hours:** 36 (27 lecture, 9 laboratory)  
Designed to prepare students to identify and explain basic computer components, set up a basic workstation, conduct basic software installation, establish basic network connectivity, identify compatibility issues, and identify/prevent basic security risks. Further, this course will prepare students in the areas of safety and preventative maintenance of computers. This course is intended for students who are considering a career in IT and later considering the pursuit of completing IT 100 and the CompTIA A+ certification exam. (not transferable)  

IT 0095. Internship in Information Technology  
*Units: 0.5-4*  
Formerly known as CIS 95  
Designed for advanced students to work in an area related to their educational or occupational goal. Provides new on-the-job technical training under the direction of a worksite supervisor, allowing students to expand knowledge and skills in the chosen field. Mandatory orientation session and faculty approval to determine eligibility. One unit of credit is equal to each 60 hours of non-paid work, or each 75 hours of paid work. Students may earn up to a total of 16 units in internship courses (any course numbered 95 and PDEV 94). (CSU-with unit limitation)  

IT 0100. Information and Communication Technology Essentials  
*Units: 4*  
Formerly known as CIS 26  
**Hours:** 72 lecture  
Provides an introduction to the computer hardware and software skills needed to help meet the growing demand for entry-level ICT professionals. Focuses on the fundamentals of computer hardware and software as well as advanced concepts such as security, networking, and the responsibilities of an ICT professional. Preparation for CompTIA's A+ certification exam. Also includes exploration and practice of 21st century career skills: Self Awareness, Communication, Social/Diversity Awareness. (C-ID ITIS 110) (CSU)  

IT 0105. Computer Network Fundamentals  
*Units: 3*  
Formerly known as CIS 65  
**Prerequisite:** Completion of IT 100 with grade of "C" or better  
**Hours:** 72 (54 lecture, 18 laboratory)  
Introduces the architecture, structure, functions, components, and models of the Internet and other computer networks. The principles and structure of IP (Internet Protocol) addressing and the fundamentals of Ethernet concepts, media, and operations are introduced to provide a foundation for further study of computer networks. Uses OSI (Open Systems Interconnection) and TCP (Transmission Control Protocol) layered models to examine the nature and roles of protocols and services at the application, network, data link, and physical layers. Preparation for the CompTIA Network+ certification exam. Also includes exploration and practice of 21st century career skills: Digital Fluency and Resilience. (C-ID ITIS 150) (CSU)  

IT 0110. Installing, Configuring and Administering a Client OS  
*Units: 3*  
Formerly known as CIS 141  
**Advisory:** Completion of IT 105 with grade of "C" or better  
**Hours:** 72 (54 lecture, 18 laboratory)  
Setup and support for a desktop operating system using a current desktop operating system in a networked environment. Creation of local and domain-level accounts, creation of shared resources, use of network services, remote access, resource management and monitoring, and security considerations. Also includes exploration and practice of 21st century career skills: Analysis/Solution Mindset, Digital Fluency and Adaptability. (CSU)  

IT 0115. Server Systems Administration  
*Units: 3*  
Formerly known as CIS 142  
**Prerequisite:** Completion of IT 105 with grade of "C" or better  
**Advisory:** Completion of IT 15 with grade of "C" or better  
**Hours:** 72 (54 lecture, 18 laboratory)  
Provides knowledge and skills required to build, maintain, troubleshoot and support Microsoft server OS technologies. Covers environmental issues, disaster recovery, physical/software security procedures, industry terminology and concepts, server roles, specializations, and interaction within the overall computing environment. Also includes exploration and practice of 21st century career skills: Analysis/Solution Mindset, Communication, Collaboration. (C-ID ITIS 155) (CSU)
IT 0120. Introduction to Information Systems Security
Units: 3
Formerly known as CIS 147
Prerequisite: Completion of IT 105 with grade of "C" or better
Advisory: Completion of IT 115 with grade of "C" or better
Hours: 72 (54 lecture, 18 laboratory)
Introduction to the fundamental principles and topics of Information Technology Security and Risk Management at the organizational level. Addresses hardware, software, processes, communications, applications, and policies and procedures with respect to organizational Cybersecurity and Risk Management. Preparation for the CompTIA Security+ certification exams. (C-ID ITIS 160) (CSU)

IT 0125. Routing and Switching Essentials
Units: 3
Formerly known as CIS 66
Prerequisite: Completion of IT 105 with grade of "C" or better
Advisory: Completion of IT 115 with grade of "C" or better
Architecture, components, and operations of routers and switches in a network. Configuring a router and a switch for basic functionality. Configure and troubleshoot routers and switches and resolve common issues with IPv4 and IPv6 networks. Along with IT 105, prepares students for the current version of the Cisco Certified Entry Level Network Technician (CCENT) certification examination. Also includes exploration and practice of 21st Century Skills: adaptability, critical thinking, digital fluency, analysis/solution mindset, and Collaboration. (CSU)

IT 0130. Cisco CCNA 3 Scaling Networks
Units: 3
Prerequisite: Completion of IT 125 with grade of "C" or better
Advisory: Completion of IT 115 with grade of "C" or better
Scaling Networks covers the architecture, components, and operations of routers and switches in larger and more complex networks. Students learn how to configure routers and switches for advanced functionality. This is the 3rd of four classes leading to the Cisco CCNA certification. Also includes exploration and practice of 21st Century Skills: adaptability, critical thinking, digital fluency, analysis/solution mindset. (CSU)

IT 0135. Cisco 4 - Connecting Networks
Units: 3
Prerequisite: Completion of IT 130 with grade of "C" or better
Advisory: Completion of IT 115 with grade of "C" or better
Connecting Networks discusses the WAN technologies and network services required by converged applications in a complex network. The course enables students to understand the selection criteria of network devices and WAN technologies to meet network requirements. This is the last of four classes needed for the Cisco CCNA certification. Also includes exploration and practice of 21st Century Skills: adaptability, critical thinking, digital fluency, analysis/solution mindset. (CSU)

IT 0140. Implementing Network Security and Firewalls
Units: 3
Prerequisite: Completion of IT 120 with grade of "C" or better
Advisory: Completion of IT 115 with grade of "C" or better
Firewalls are one of the primary tools used to prevent unauthorized access to corporate networks. Students will learn how to design and configure firewalls to allow access to key services while maintaining an organization's security, as well as how to implement firewall-to-firewall Virtual Private Networks (VPNs). Also includes exploration and practice of 21st Century Skills: analysis/solution mindset, collaboration, and adaptability. (CSU)

IT 0145. Introduction to Cybersecurity: Ethical Hacking
Units: 3
Formerly known as CIS 152
Prerequisite: Completion of IT 120 with grade of "C" or better
Advisory: Completion of CSCI 50 with grade of "C" or better
Hours: 72 (54 lecture, 18 laboratory)
Immerses IT Professionals in hands-on intensive environment providing in-depth knowledge and experience with current essential security systems. Provides understanding of perimeter defenses and leads to scanning and attacking networks; no real networks are harmed. Students learn how to detect and exploit vulnerabilities and the steps to be taken to secure a system. Also covers Intrusion Detection, Policy Creation, Social Engineering, DoS Attacks, Buffer Overflows, Virtual Machines, and Virtual Creation. Focus includes legal and regulatory requirements, ethical issues, basic methodology and technical tools used for ethical hacking and penetration tests. Students establish a pre-test agreement with the enterprise, discover and exploit vulnerabilities, participate as a member of a pentest team and prepare a penetration test report. Also includes exploration and practice of 21st Century Skills: Self-Awareness and Empathy. (CSU)

IT 0150. Principles of Cybersecurity Analysis
Units: 3
Formerly known as CIS 153
Prerequisite: Completion of IT 120 with grade of "C" or better or CompTIA Security+ certification as determined by the Information Technology Department Chair
Advisory: Completion of IT 115 with grade of "C" or better
Focuses on the critical knowledge and skills required to prevent, detect and combat cybersecurity threats; includes the application of behavioral analytics to improve the overall state of IT security. Covers exam objectives relating to the CompTIA Cybersecurity Analyst (CSA+) industry certification. (CSU)

IT 0155. Virtualization Concepts and Technologies
Units: 3
Formerly known as CIS 148
Advisory: Completion of IT 105 with grade of "C" or better
Hours: 72 (54 lecture, 18 laboratory)
Knowledge and skills necessary to understand and implement Virtualization Concepts. The core concepts of creating and managing virtual machines, network servers, and network design presented. Labs demonstrate benefits associated with virtualization such as fault tolerance and high availability. Successful completion of this course meets the educational requirement for VMware certification. Also includes exploration and practice of 21st Century Skills: adaptability and analysis/solution mindset. (CSU)

IT 0165. Computer Forensics Fundamentals
Units: 3
Formerly known as CIS 88
Also known as ADMJ 88
Advisory: Completion of ADMJ 54 and IT 120 with grades of "C" or better
Hours: 72 (54 lecture, 18 laboratory)
Introduction to the methods used to properly conduct a computer forensics investigation, beginning with a discussion of ethics, while mapping the objectives of the International Association of Computer Investigative Specialists (IACIS) certification. Topics covered include an overview of computer forensics as a profession; the computer investigation process; understanding operating systems boot processes and disk structures; data acquisition and analysis; technical writing; and a review of familiar computer forensics tools. Also includes exploration and practice of 21st Century Skills: analysis/solution mindset. (CSU)
IT 0865. CompTIA Network+ Exam Prep  
Units: 0  
Formerly known as CIS 865  
Advisory: Completion of IT 105 with grade of "C" or better or equivalent  
Hours: 12 lecture  
Intended to prepare students to take and pass the CompTIA Network + Certification Exam. Students taking this class should have taken IT 105 class or equivalent, and have a thorough understanding of the key concepts covered in exam. The course will discuss the layout and content areas of the exam, example test questions, and high-level review of key concepts when needed. (pass/no pass grading) (noncredit)

IT 0890. IT Fundamentals  
Units: 0  
Hours: 36 (27 lecture, 9 laboratory)  
Designed to prepare students to identify and explain basic computer components, set up a basic workstation, conduct basic software installation, establish basic network connectivity, identify compatibility issues, and identify/prevent basic security risks. Further, this course will prepare students in the areas of safety and preventative maintenance of computers. This course is intended for students who are considering a career in IT and later considering the pursuit of completing IT 100 and the CompTIA A+ certification exam. (pass/no pass grading) (noncredit)
