Division Office

B 3, Rocklin Campus

Overview

The Drafting and Engineering Support curriculum is designed to prepare students for careers in industry as engineering support technicians who plan, prepare and interpret engineering sketches for design and drafting relative to mechanical and architectural designs, civil structures and developments, weldments, electronic circuits, or landscape architecture and design. Includes sketching and the application of Computer Aided Drafting and Design (CADD) software to the creation of graphic representations and simulations in support of engineering projects.

AA and AS degrees as well as certificates can be earned in the Drafting and Engineering Support Program. The certificate programs do not satisfy AA/AS degree requirements but do qualify students for a certificate in the field of study.

Faculty

Alison R. Salome

Professor, Drafting and Engineering Support

A.A., Sierra College

Drafting and Engineering Support Advisory Committee

- J.T. Doupnik, Architect, Gary Doupnik Manufacturing, Loomis
- Eric Driever, Architect, William Paddon Associates, Roseville
- Pam Emrick, Designer, Pasco Scientific, Roseville
- Terence J. Green, Architect, William Paddon Associates, Roseville
- Philip Hawkins, Architect, PHA and Associates, Auburn
- Anatole Hulewsky, Designer, ALH and Associates, Fair Oaks
- Stephen M. Jung, Architect, Gordon Rogers and Company, Rocklin
- Eric Kim, CAD Designer, Visual Enterprises, Citrus Heights
- Michael Manasco, Designer, Stantec, Sacramento
- John Masha, P.E., Civil Engineer, MJM Engineering Consultant, Folsom
- Earl McGuire, Engineer, McGuire Engineering, Placerville
- Michael Kent Murphy, AIA, Michael Kent Murphy Architect, Auburn
- Floyd Riffey, Senior Designer, Aerojet—Tech Systems, Sacramento
- Gordon Rogers, Architect, Gordon Rogers and Company, Rocklin
- Christine Thompson, Designer, Lionakis Beaumont, Sacramento
- Phil Titus, AIA, Rauschenbach Marvelli Becker Architects, Sacramento
- Marni Vincent, Design and Build Assistance, Colfax
- Butch Webb, Centex Homes, Roseville

Degrees/Certificates

Associate Degrees

- Drafting and Engineering Support—Architectural/Civil (p. 1)
- Drafting and Engineering Support—Mechanical/Civil (p. 2)

Certificates of Achievement

- Drafting and Engineering Support—Architectural/Civil (p. 1)
- Drafting and Engineering Support—Mechanical/Civil (p. 2)

Skills Certificates

- Architectural Drafting Specialist (p. 2)
- Drafting Essentials (p. 2)
- Mechanical Drafting Specialist (p. 2)

Drafting and Engineering Support—Architectural/Civil

AA or AS Degree and/or Certificate of Achievement

(formerly Engineering Support Technology—Architectural)

Successful completion of the curriculum in Drafting and Engineering Support—Architectural/Civil prepares students for entry-level positions as document support technicians in the fields of architecture, interior design and kitchen/bath design. For the degree, students must fulfill the following major requirements with grades of “C” or better, complete a minimum of 60 degree-applicable semester units (12 of which must be completed at Sierra College) with a grade point average of at least 2.0 and complete one of the following three general education patterns:

- Sierra College Associate Degree Requirements (<http://catalog.sierracollege.edu/student-resources/general-education/associate-degree-requirements>);
- California State University General Education Breadth (<http://catalog.sierracollege.edu/student-resources/general-education/california-state-university-general-education-breadth-requirements>) pattern;
- Intersegmental General Education Transfer Curriculum (IGETC) (<http://catalog.sierracollege.edu/student-resources/general-education/intersegmental-general-education-transfer-curriculum-igetc>).

A certificate is designed to provide career technical skills; it is not equivalent to an associate degree.

Required Courses

DES 0001	Technical Drafting I	3
DES 0002	Technical Drafting II	3
DES 0010	Industrial and Civil Applications of Computer-Aided Design	3
DES 0020	Architectural Drawing I	3
DES 0021	Architectural Drawing II	3
DES 0022	Architectural Drawing III-BIM (Building Information Modeling)	3
DES 0040	Managing the Computer-Aided Design (CAD) Environment	3
DES 0095	Internship in Drafting and Engineering Support	0.5-4
Total Units		21.5-25

Recommended Electives

CET 0020	Foundations and Framing	3
CET 0022	Introduction to Energy Efficiency Construction	3
CET 0024	Fundamentals of Construction Documents and Estimating	3
CET 0032	Residential Building Codes	3
ENGR 0010	Engineering Survey Measurements	4

Drafting and Engineering Support—Mechanical/Civil AA or AS Degree and/or Certificate of Achievement

(formerly Engineering Support Technology—Mechanical/Civil)

Successful completion of the curriculum in Drafting and Engineering Support—Mechanical/Civil prepares students for entry-level positions as document support technicians in the fields of mechanical and civil engineering. For the degree, students must fulfill the following major requirements with grades of “C” or better, complete a minimum of 60 degree-applicable semester units (12 of which must be completed at Sierra College) with a grade point average of at least 2.0 and complete one of the following three general education patterns:

- Sierra College Associate Degree Requirements (<http://catalog.sierracollege.edu/student-resources/general-education/associate-degree-requirements>);
- California State University General Education Breadth (<http://catalog.sierracollege.edu/student-resources/general-education/california-state-university-general-education-breadth-requirements>) pattern;
- Intersegmental General Education Transfer Curriculum (IGETC) (<http://catalog.sierracollege.edu/student-resources/general-education/intersegmental-general-education-transfer-curriculum-igetc>).

A certificate is designed to provide career technical skills; it is not equivalent to an associate degree.

Required Courses

DES 0001	Technical Drafting I	3
DES 0002	Technical Drafting II	3
DES 0003D	Design for Additive Manufacturing - 3D Printing	3
DES 0010	Industrial and Civil Applications of Computer-Aided Design	3
DES 0011	Three-Dimensional Modeling	3
DES 0020	Architectural Drawing I	3
DES 0021	Architectural Drawing II	3
DES 0040	Managing the Computer-Aided Design (CAD) Environment	3
DES 0095	Internship in Drafting and Engineering Support	0.5-4
Total Units		24.5-28

Recommended Electives

ENGR 0010	Engineering Survey Measurements	4
WELD 0020	Introduction to Welding Technology - Career Path	3

Architectural Drafting Specialist**Skills Certificate**

Designed to give students the advanced drafting support knowledge and abilities required to enter the workforce at the specialist level. Focuses on skills relative to specialized architectural documentation such as is used in architectural and civil construction trades. Appropriate for students seeking retraining. This is a specialty skills certificate designed to provide career technical skills; it is not equivalent to an associate degree.

Required Courses

DES 0020	Architectural Drawing I	3
DES 0021	Architectural Drawing II	3
DES 0022	Architectural Drawing III-BIM (Building Information Modeling)	3
DES 0010	Industrial and Civil Applications of Computer-Aided Design	3
or CET 0022	Introduction to Energy Efficiency Construction	

Total Units 12

Drafting Essentials**Skills Certificate**

Designed to give students the basic drafting support knowledge and abilities required to enter the workforce at an entry level. Focuses on skills relative to the fields of architecture and mechanical computer-aided drafting (CAD). Appropriate for students seeking retraining. A skills certificate is designed to provide career technical skills; it is not equivalent to an associate degree.

Required Courses

DES 0001	Technical Drafting I	3
DES 0002	Technical Drafting II	3
DES 0020	Architectural Drawing I	3
DES 0021	Architectural Drawing II	3

Total Units 12

Mechanical Drafting Specialist**Skills Certificate**

Designed to give students the advanced drafting support knowledge and abilities required to enter the workforce at the specialist level. Focuses on skills relative to specialized mechanical documentation such as is used in aerospace and automotive drafting. Appropriate for students seeking retraining. Will help successful candidates prepare to sit for the professional ASME (American Society of Mechanical Engineers) Y14.5 Geometric Dimensioning and Tolerancing certification exam. This is a specialty skills certificate designed to provide career technical skills; it is not equivalent to an associate degree.

Required Courses

DES 0001	Technical Drafting I	3
DES 0002	Technical Drafting II	3
DES 0003D	Design for Additive Manufacturing - 3D Printing	3
DES 0012	Geometric Dimensioning and Tolerancing	3
DES 0011	Three-Dimensional Modeling	3
or ENGR 0022B	Descriptive Geometry and Solid Modeling	

Total Units 15

Courses

Understanding course descriptions (<http://catalog.sierracollege.edu/student-resources/course-information/understanding-course-descriptions>)

DES 0001. Technical Drafting I

Units: 3

Formerly known as EST 1

Hours: 90 (36 lecture; 54 laboratory which may be scheduled TBA)
Fundamental use of design equipment to create both two dimensional technical sketches and two and three dimensional computer generated working drawings that are used for product definition. Introduction to product and process definition as specified by engineering design disciplines. Designed for students with no previous experience in engineering design/drafting. (CSU)

DES 0002. Technical Drafting II

Units: 3

Formerly known as EST 2

Prerequisite: Completion of DES 1 with grade of "C" or better or equivalent as determined by instructor

Hours: 90 (36 lecture; 54 laboratory which may be scheduled TBA)
Intermediate concepts of engineering design including sections, auxiliaries, threads, fasteners, and dimensional tolerancing. Basic concepts of Geometric Dimensioning and Tolerancing. Design for manufacturability and assembly explored to include material selection and properties of materials. Designed for students who have attained a fundamental knowledge of the processes and practices of engineering design/drafting. (CSU)

DES 0003D. Design for Additive Manufacturing - 3D Printing

Units: 3

Hours: 90 (36 lecture, 54 laboratory)

Introduction to design for 3D printing through machine operation and use of design software to create geometric models to satisfy defined requirements. Introduction to product design process and exploration of additive manufacturing (3D printings) impact on that process, as well as manufacturing. Designed for students with no prior experience with 3D printing or design. (not transferable)

DES 0010. Industrial and Civil Applications of Computer-Aided Design

Units: 3

Formerly known as EST 10

Prerequisite: Completion of DES 2 or 20 with grade of "C" or better or equivalent as determined by instructor

Hours: 90 (36 lecture; 54 laboratory which may be scheduled TBA)
Development of drafting skills used in the areas of industrial and civil engineering support. Emphasis on land division, determination of location and direction, development of plots based upon legal description and the fundamentals of surveying as applied to preliminary and final maps. Designed for students who have attained an intermediate knowledge of the processes and practices of engineering design/drafting support. Introduction to AutoCAD Civil 3D software. (CSU)

DES 0011. Three-Dimensional Modeling

Units: 3

Formerly known as EST 11

Prerequisite: Completion of DES 2 or MECH 44 with grade of "C" or better; or equivalent as determined by instructor

Hours: 90 (36 lecture; 54 laboratory which may be scheduled TBA)
Processes employed in developing design solutions using a feature based parametric solid modeler. Includes part and assembly modeling, and the development of 2-dimensional part and assembly drawings. SolidWorks is the solid modeler used. (CSU, UC)

DES 0012. Geometric Dimensioning and Tolerancing

Units: 3

Formerly known as EST 12

Prerequisite: Completion of DES 2 with grade of "C" or better or equivalent as determined by instructor

Hours: 54 lecture

Expands upon basic knowledge of dimensioning mechanical drawings by adding form and feature controls in order to clearly define parts. Review of basic dimensioning and tolerancing. Topics, as defined in ASME Y14.5-2009 Standard, include geometric tolerancing symbols and terms, rules of geometric dimensioning and tolerancing, datums, material condition symbols, tolerances of form and profile, tolerances of orientation and runout, location tolerances and virtual condition. (CSU)

DES 0020. Architectural Drawing I

Units: 3

Formerly known as EST 20

Hours: 90 (36 lecture; 54 laboratory which may be scheduled TBA)
Introduction to the fundamentals of residential construction and its design. Drawings of a residence are developed and detailed, to include sketches, plot and floor plans, foundation, elevations, schedules, framing, electrical, plumbing, and section views. AutoCAD instruction is incorporated to develop CAD drawings and electronic data sets. (CSU)

DES 0021. Architectural Drawing II

Units: 3

Formerly known as EST 21

Prerequisite: Completion of DES 20 with grade of "C" or better or equivalent as determined by instructor

Hours: 90 (36 lecture; 54 laboratory which may be scheduled TBA)
Continuation of the residential design started in DES 20 to include major detailing to conform to the current industry building codes. Drawings to include fireplaces, stairs, interiors, mechanical specifications, Title 24, a two-point perspective drawing and renderings. Basic introduction to Building Information Modeling. (CSU)

DES 0022. Architectural Drawing III-BIM (Building Information Modeling)

Units: 3

Prerequisite: Completion of DES 21 with grade of "C" or better or equivalent as determined by instructor

Hours: 90 (36 lecture; 54 laboratory which may be scheduled TBA)
Continuation of the architectural design started in DES 20 and 21. Students utilize Building Information Modeling (BIM) using REVIT software to develop commercial architectural documentation (including electronic data sets) in adherence to the International Building Code (IBC) and local county and state codes. (CSU)

DES 0028. Independent Study

Units: 1-3

Formerly known as EST 28

Designed for students interested in furthering their knowledge at an independent study level. Independent study might include, but is not limited to, research papers, special subject area projects, and research projects. See Independent Study page in catalog. (CSU)

DES 0040. Managing the Computer-Aided Design (CAD) Environment

Units: 3

Formerly known as EST 40

Prerequisite: Completion of DES 10, 11 or 22 with grade of "C" or better, or equivalent as determined by instructor

Hours: 90 (36 lecture; 54 laboratory which may be scheduled TBA)

Designed for the advanced Engineering Support and Drafting student.

Topics include proper CAD management skills and the development of "as built" models used in the manufacturing, architectural and civil disciplines. Focus on utilizing, creating and instituting CAD standards, policies and procedures. Development of prototypes integral to the design process in their chosen area of concentration (mechanical, civil and/or architecture). (CSU)

DES 0095. Internship in Drafting and Engineering Support

Units: 0.5-4

Formerly known as EST 95

Designed for advanced students to work in an area related to their educational or occupational goal. Provides new on-the-job technical training under the direction of a worksite supervisor, allowing students to expand knowledge and skills in the chosen field. Mandatory orientation session and faculty approval to determine eligibility. One unit of credit is equal to each 60 hours of non-paid work, or each 75 hours of paid work. Students may earn up to a total of 16 units in internship courses (any course numbered 95 and PDEV 94). (CSU-with unit limitation)

Program Student Learning Outcomes (PSLOs)

- Demonstrate computer aided drafting practices that conform to business and industry CAD standards.
- Demonstrate a working knowledge of the design process and the importance of concurrent engineering principles.
- Apply appropriate, current and relevant industry standards in preparing technical documentation for the appropriate discipline of their study.
- Develop complete working drawings in discipline of study for use in manufacturing/building application.
